

Public Partnerships, LLC (PPL) Transition as New Vendor Fiscal (VF)/Employer Agent (EA) Delayed Until April 1, 2024

ODP Announcement 23-084

AUDIENCE:

All interested parties

PURPOSE:

To announce the delay of the start date for transition of VF/EA Financial Management Services (FMS) from PALCO to PPL until April 1, 2024.

DISCUSSION:

The VF/EA Financial Management Services (FMS) transition from PALCO to PPL for participants who use the VF/EA model of service will now start April 1, 2024, instead of January 1, 2024. The decision to delay the start date for this transition was made to allow more time for Common Law Employers (CLEs) and their Support Service Professionals (SSPs) to complete the necessary trainings and paperwork required for the transition.

SSPs should continue to submit their timesheets to PALCO for the next several months. For now, PALCO will continue to enroll new participants, CLEs and their SSP's.

PPL, ODP, and PALCO are committed to ensuring the smoothest possible transition from PALCO to PPL. Extensive support will be provided to individuals and families who require assistance with transition

activities. Additionally, general guidance and support will be provided through in-person “meet and greet” sessions with PPL, monthly stakeholder meetings, and a series of informational webinars.

Detailed information about transition support activities and a letter to participants will be released soon.
